**Celebration of International commemorative day**

To the remembrance of commemorative days, this year we celebrate the death of Francis Crick, Molecular Biologist, Co-discoverer of the Structure of the DNA Molecule, also a Nobel Prize Winner born on June 8, 1916. He is a British scientist who died on July 28, 2004. To the remembrance of Francis Crick and to motivate the biotechnology students We, Department of Biotechnology conduct a quiz competition related to molecular biology on 28.06.2017 for our department students.

About Through this program about 90 students got exposure. All the students showed their heartily involvement.

DEPARTMENT OF BUSINESS ADMINISTRATION

REPORT ON TRIBUTE TO FAMOUS PERSONALITY IN  
BUSINESS ORGANISATION  
(2017 – 2018)

Subject - Business Organisation  
Staff - D. Anto Pravin Singh  
Personality - Jeff Bezos – Successful Entrepreneur of Amazon Company  
Class - I BBA  
Hour - II  
Order - VI  
Date - 19-8-2017

Jeff Bezos, by name of Jeffrey Preston Bezos, (born January 12, 1964, Albuquerque, New Mexico, U.S.), American entrepreneur who played a key role in the growth of e-commerce as the founder and chief executive officer of Amazon.com, Inc., an online merchant of books and later of a wide variety of products. Under his guidance, Amazon became the largest retailer on the World Wide Web and the model for Internet sales.

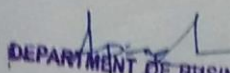

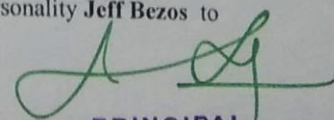

I played the most inspirational Story of Jeff Bezos, explained his history to them and I told some interesting information about him to them. The session was interesting and informative.

Totally 41 students were benefited from the programme.

**Feedback:**

This helped us to know more about the contribution given by the personality **Jeff Bezos** to our society and motivated us.

**Report on Computer Literacy DAY(Criteria 7)**

**(2018-2019)**

World Computer Literacy day has been celebrated on **December 2<sup>nd</sup>** of every year. The Computer Literacy Day is observed to promote the awareness about the computer and electronic devices. To the extent of this our II M.Sc Computer Science students give special coaching to the nearby school students. They give training to the students about the basics of computer especially the M.S.Office . This makes a good awareness among the younger generation. By using this programme more than 50 students were benefited. And also our students got a good experience from this.

**Report on a programme on Family Literacy Day**

**on 1<sup>st</sup> November 2021**

Families gather around to observe National Family Literacy Day on November 1st. Families who read together succeed together.

There are more reasons than ever before for families to read aloud to their children from a young age. Besides the fact that reading creates quiet, quality family time, it develops early vocabulary skills.

The crisis of COVID-19 has disturbed the learning of children, young people, and adults on an unusual scale. At least 773 million young people and adults are lacking literacy skills today. Even in the time of global crisis, efforts are being made to find alternative ways to ensure the continuity of learning, like distance learning, etc. Literacy is a driver of sustainable development. It empowers individuals and improves their living standards. Sustainable Development Goal 4 defines literacy as an integral part of education and lifelong learning premised on humanism. Also, literacy is important to a human-centred recovery from COVID-19.

It was decided by the department to celebrate the same on 1<sup>st</sup> November 2021 and III B.A English students were informed to make arrangements.

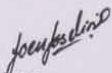

A documentary video on the importance of this day was shown to the students. After the documentary show, the students were taken to the library to read articles, papers, books etc. The students in their comments said that the session was very useful to them and that they could get some practical knowledge regarding the same.

With the aim of changing the thought process and indicating belongingness, Family literacy day was organised to encourage students to celebrate this event as joyfully as they can.

#### Report of World Environmental Health Day

Date:25-09-2021

Time :2.00 pm

The Department of Physics organized a Virtual Orientation programme on the topic "Grow Trees For Fresh Breeze" on 25-09-2021. We started the programme with a prayer song. Mrs. M. Latha Beatrice, Head of the Department welcomed the gathering. Dr.J.M.Sasi Premila, Associate Professor of Biotechnology, Annai Velankanni college was the resource person in this programme. About 30 students and 3 staff members were present in the programme. She explained the following.

- \*Theme of World Environment Health Day
- \*Environment consciousness in kanya kumari district
- \*How to grow trees for fresh breeze?

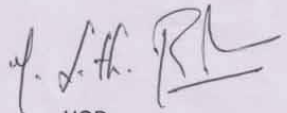

At the end of the talk we had an excellent interactive session. Finally Dr. M. Maria Lenin presented vote of thanks. E-certificates were distributed to the participants after the feedback session. The meeting came to an end at 3.00pm with the National Anthem.

Consolidated Feed back:

- Very useful session
- It helps to understand the importance of growing trees for fresh breeze.

**Online Competition on 3C's - Report**

Participants: **BBA Students**

Date: 27/08/2021

Time: 11.00a.m. – 12.00p.m.

Theme: **“On Your Dream Small Scale Industries”**

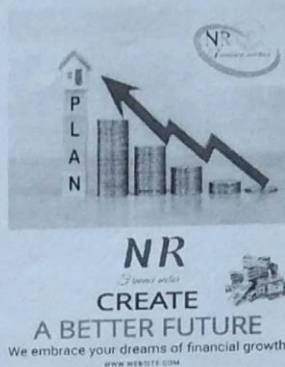

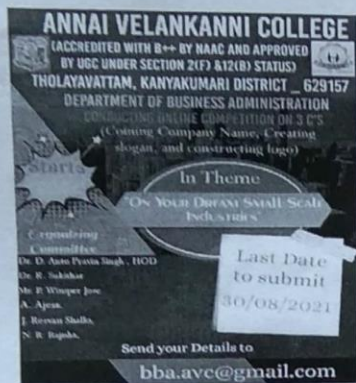

Online Competition on 3C's (Coining Company Name, Creating Slogan and Constructing Logo)

No. of Beneficiaries: 40 Students.

**Introduction:**

On August 30, 2000, a comprehensive policy package for the SSI sector was launched, providing significant support to small firms in India. It was subsequently agreed that August 30 would be designated as “SSI Day” by the Ministry. On August 30, 2001, the Ministry of Small-Scale Industries held an SSI (Small Scale Industry) Convention for SSI Entrepreneurs in New Delhi, as well as a presentation of the National Awards function. The day is dedicated to encouraging small businesses around the country. This day is observed with the goal of encouraging small businesses and offering job chances to the jobless. In a developing nation like India, a small-scale sector plays an essential part in economic growth. Keeping in view the strategic relevance of the sectors, special emphasis has been placed on the necessity for its development. As a result, the trend of government policy assistance for the small industry has been beneficial and favourable for the growth of small enterprises.

To celebrate that day and to create our students as future entrepreneurs we organised an Online Competition on 3C's (Coining Company Name, Creating Slogan and Constructing Logo) for our BBA students.

#### Programme Outcome:

- Creativity of the students will be developed
- An interest in starting a small scale business comes in the mind set
- Students Competitive Spirit will be enhanced
- Self-Confident

#### Prize Winners

1. I Prize Resvan Shallo. J - III BBA
2. II Prize Rajisha. N.R - III BBBA

#### Feedback

- Overall feedback was very positive
- Students told it was a different experience
- Students suggested to organize many competitions in future also.

INTERNATIONAL DAY OF DEMOCRACY REPORT 2021

**Programme name** : Celebration of International day of Democracy  
**Period of Activity** : 15/09/2021  
**Faculty** : M. Benadict Rajan  
**Classroom** : M-2-4  
**Target Group** : II MA English  
**Participated Students** : 26 students

**Objectives:**

- To prepare the students for a new digital era and to make them aware of the importance of democracy and principles
- To help to highlight the challenges of inequality with specific focus on the needs and rights of women, youth, minorities and other marginalized populations
- To make the learners to aware of significance of fighting against misinformation, disinformation and hate speech, which have mushroomed in the crisis

**Ground Report**

The department of English has organized an classroom participatory programme to celebrate the "INTERNATIONAL DAY OF DEMOCRACY" for II MA Literature students. The programme began with a prayer song. Following that, two II MA students have given speeches on **History of Democracy and Indian democracy**. In addition to this, a quiz is conducted to create awareness about democracy. The faculty gave a short speech on the pillars of democracy. The programme ended with a vote of thanks.

**Outcomes:**

- ❖ Students are made to aware of the significance of the literature course and the objectives of the degree programme must be met at the end of the course.
- ❖ Prepare students for the learning environment and make them at ease in college.
- ❖ The students are oriented towards new normal learning and motivated to embrace the online learning environment, and also utilize the platform and opportunities given by the college.

DEPARTMENT OF CHEMISTRY  
REPORT ON OZONE DAY  
Theme: "Ozone for Life: 36 years of Ozone Layer Protection"

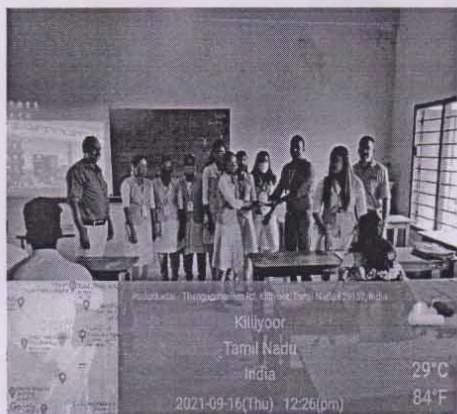

Date: 16/09/2021

Time: 10 am -1 pm

Chemistry Club of our Department has conducted World Ozone Day programme on 16-09-2021. Our II PG students have prepared plug-cards relevant to Causes and Prevention of Ozone layer Depletion. Pledge was taken by our students to safe guard ozone layer. Awareness of ozone layer depletion was given by G.Sushmitha, R.Nimisha and J.S.Lershilin Shilbha of II PG students to various classes. They highlighted the major cause of Ozone layer depletion is due to vehicle pollution. They instructed the students to encourage their family members to use bicycles. Freon free Refrigerators are recommended to the students. In order to promote oxygen level Indoor plantation of money plant was done by our III UG and II PG students in all the 10 Departments.

Number of students participated: 58, Number of Staff attended: 5

**Feedback:**

- Students learnt the importance of ozone layer.
- The programme was highly inspired.

**Celebration of International commemorative day**

To the celebration of commemorative days, we celebrate the birth of William Bateson on 09.08.2019 at 2 pm. Science Blasters Club of Biotechnology Department conducted cross word puzzle for our department students.

**William Bateson:**

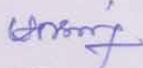

William Bateson born on August 8, 1861. He was the first person to use the term genetics to describe the study of heredity.

Bateson began work on the experimental breeding of plants and animals. Bateson carried out his own translation of Mendel's paper into English. Bateson's such kind of work was very helpful to achieve many developments in Genetics. So, we planned to conduct an event in Genetics.

**Activity:**

To inculcate Genetics to our department students, we conducted the Cross-word Puzzle on the birth date of one the greatest personality on Genetics named William Bateson. For this event 16 students from our department participated gave their best. Total twenty questions were given and 1 hour given for their completion. Around 3 pm the event comes to an end.

**Remembrance of International Personality day**

To remember the death of Kary Mullis on 06.09.2019 we, the Science Blasters Club of Biotechnology Department conducted a lecture for our department students.

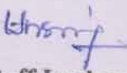

**Kary Mullis:**

Kary Mullis, whose invention of the polymerase chain reaction technique earned him the Nobel Prize in Chemistry in 1993. He was personally and professionally one of the more iconic personalities in science. Due to his development now, biological world achieved a lot. So, we planned to explain his discovery for each class of our department.

**Activity:**

To mold our students in Biotechnology we planned to conduct a lecture to our department related to polymerase chain reaction. So, our club member Miss. Shabina Beegam gave a lecture about polymerase chain reaction to III B.Sc Biotechnology students of our department on 12/12/2019. Through this program about 17 students benefited. She clearly explained about all the steps involved in PCR and its applications.

**Academic Year: 2021-2022**

**Name of the club** : Hello Girls Club  
**Title** : "International Day of Rural Women"  
**No. of Participants** : 125  
**Date** : 13.10.2021  
**Event** : Awareness Campaign

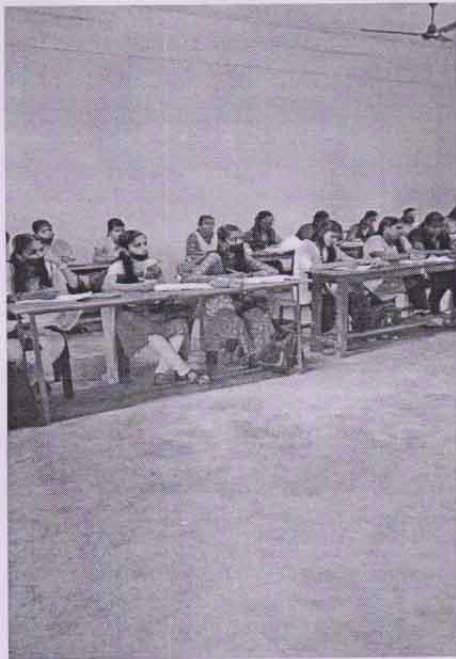

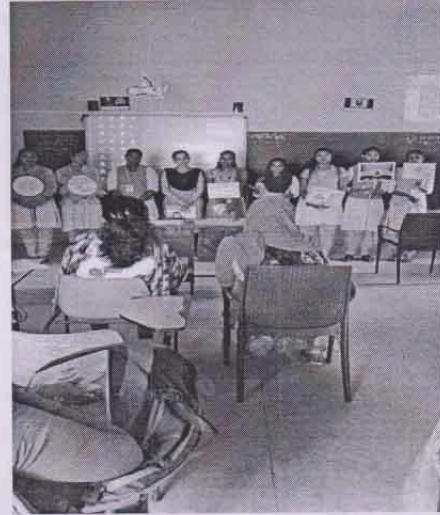

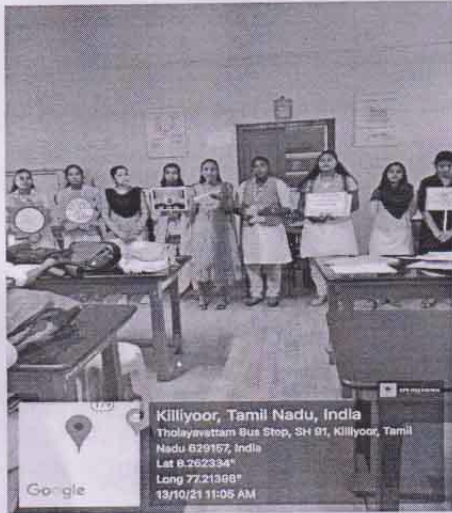

**Report:**

An awareness campaign regarding "Rural women" was arranged by our department Hello Girls Club volunteers to all the 1<sup>st</sup> year UG (Interdepartmental) students on 13<sup>th</sup> October 2021. Each volunteer gave awareness about the problems that faced by rural women as well as how they set their lives. This day focuses on gender equality and empowering women in rural areas. For this year, the theme is "Rural women cultivating good food for all". Highlighting the purpose of this day, United Nations said that it "recognizes the critical role and contribution of rural women, including indigenous women, in enhancing agricultural and rural development, improving food security and eradicating rural poverty."

This International Day of Rural Women offers us a renewed opportunity to commit to a different way of organizing our world, to build on the vision of the Feminist Plan and on the outcomes and multistakeholder commitments of the recent United Nations Food System Summit, so that rural women benefit equally from their productivity, with good food enjoyed by all.

According to a report by the United Nations, 40% of the total agricultural labour force in developing countries comprises women. In South American countries, the figure is around 20% whereas, in Asia and Africa, more than 50% of the agricultural labour force is women. But even after comprising almost half the workforce, these women do not get equal rights and share as their male counterparts. They face discrimination in access to resources, equal

pay, participation in decision making, land and livestock ownership, credit and market for their farms.

The ongoing Covid-19 pandemic and increasing environmental crisis have deepened the crisis of food insecurity in many parts of the world, despite nature being capable enough to produce sufficient and good quality food for everyone. The recent report by UN Women states that in 2020, 23.7 billion people could not have access to adequate food. This means that around 20% or 3.2 billion people more were pushed towards hunger. Among these people, the group which faced most of the brunt was rural women and children.
